Dear Colleague,

Junior Achievement Turks & Caicos continues to inspire and equip young people to learn and succeed through enterprise and to help students develop the attitudes and skills for enterprise, personal success, lifelong learning and employability.

During this school year we will be running two programs in the primary and secondary schools:

Economics for Success - provides practical information about personal finance and the importance of identifying education and career goals based on a student's skills, interests, and values. It also demonstrates the economic benefits of staying in school; target ages 14-16 yrs.

More than Money - teaches students about earning, spending, sharing, and saving money. It also identifies businesses that students can start or jobs they can perform to earn money. Students play a game to learn money-management skills and to better understand the role and importance of money in their lives; target ages 8-12 yrs.

Both programs are completely dependent on volunteers and sponsorships which to date have allowed for the participation of more than 500 students nationwide to be empowered through its invaluable lessons. The JATCI Board would appreciate your sincere consideration of support for this program for this year through ***(1) volunteering to facilitate a 1hr session at a participating school, (2) giving a financial donation to offset program expenses.***

Should you need any additional information that would support our request for continued funding or volunteering please feel free to contact the undersigned on 331-4892.

Sincere regards,

Mrs Angela Musgrove
Chairman/JATCI Board

2018 Junior Achievement Turks and Caicos Contribution Form
